

Sugar news

Sugar Industry Abstracts Database

CABI's *Sugar Industry Abstracts* brings you the latest information on the sugar industry, from the agronomy of sugarcane and sugarbeet to economics, nutrition and health. *Sugar Industry Abstracts* is a fully searchable abstracts database of internationally published research on the sugar industry. Derived from CABI's well-respected CAB Abstracts database, it contains the most up-to-date, relevant information about all aspects of this industry including:

Cane sugar manufacture and beet sugar manufacture | Sugar refining | Machinery and equipment | Environmental issues | Molasses, alcohol and vinasse | Other fermentations | Animal feeding | Other by-products and uses | Analysis and control | Properties and uses of sugars | Sweeteners and honey | Nutrition and health aspects | Economics, legislation and regulations | Sugar crop production.

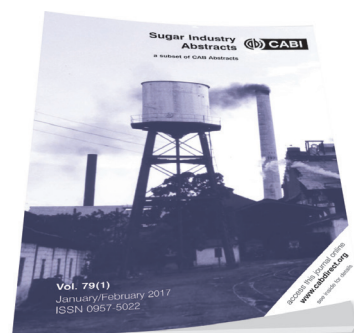

Key features

- Over 5,000 records are added to the database each year
- Includes a fully searchable backfile to 1990
- Over 100,000 bibliographic records, most with abstracts

Sugar Industry Abstracts is updated weekly online to deliver all the latest searchable summaries covering key English and non-English language journal articles, reports, conferences and books – bringing a wealth of current and seminal research to your fingertips!

Nutrition and Food Sciences internet resource

CABI's *Nutrition and Food Sciences* internet resource is a key tool for those researching, working and studying within the food sciences field.

Compiled by food and nutrition experts, no other database can provide such a comprehensive view of the food chain or the interactions between diet and health. Now with over 1.3 million records, it covers the whole food chain from the properties of raw ingredients, to the dietary effects of food, and food components in humans, giving you a full picture for your work or research.

The resource includes pre-configured Smart Searches from 'Appetite and satiety' through to 'Sugar substitutes and replacers'.

We continually update the news articles within the resource, to bring you the latest developments across the field of human nutrition, food science and food technology.

eZine
Your update of CABI News

Welcome to our latest issue of eZine. We look back over CABI’s news in August 2016 and bring you the highlights of our work solving problems in agriculture and the environment.

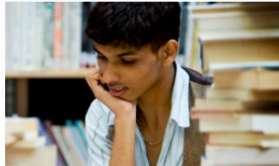

New Zambia office strengthens Plantwise food security programme

CABI has opened a new Southern Africa office in Lusaka, Zambia, putting staff on the ground to strengthen its work in international development, including the Plantwise food security programme. This award-winning, CABI-led programme has been active in Zambia since 2013. To date, CABI has helped establish over 60 plant clinics and trained over 100 plant doctors in Zambia, reaching thousands of the country’s farmers.
