

a reviews journal covering agriculture,  
global health, nutrition, natural resources  
and veterinary science

### what is CAB Reviews?

A peer-reviewed reviews journal, complementing the subject coverage of CAB Abstracts and Global Health, by focusing on animal science, global health, veterinary medicine; applied plant sciences; agriculture; nutrition and food science; natural resources and environmental sciences. CAB Reviews provides scientists and students in these fields with timely analysis on key topics in current research. It is an authoritative resource that highlights cross-cutting themes.

CAB Reviews include detailed indexing and CABICODEs, allowing more sophisticated searching through the abstract database – allowing you to find the latest reviews easily and quickly.

#### key features

- At least 60 new reviews per year
- Peer reviewed
- International editorial board
- Cross-cutting thematic articles
- Online publication on an article-by-article basis
- Exclusively electronic format
- Backfiles of relevant reviews to 2003

## why use CAB Reviews?

CAB Reviews summarizes key developments and places them into a wider context for busy academics and students. It provides essential analysis of current research and emerging trends. It has a distinguished Editorial Advisory Board and a wide international readership.
