## Health, Food & Nutrition

# 2018

KNOWLEDGE FOR LIFE

## Contents

**03** public health

**08** communicable diseases

**10** human nutrition and food science

**14** microbiology and parasitology

## Open Access

Indicates that the publication is Open Access.

## eBooks

Many CABI titles are available in eBook format. These can be found through all major eBook retailers and institutional suppliers where available.

**Please note:** all details were correct at the time this catalogue went to press, but may be subject to change without notice. Please refer to [www.cabi.org/bookshop](http://www.cabi.org/bookshop) for up-to-date title information.

US publication is **2 months after** UK publication.

## Contact us

### Editorial

If you wish to submit a proposal or discuss collaborating on a project, please email Alex Lainsbury, Commissioning Editor: [a.lainsbury@cabi.org](mailto:a.lainsbury@cabi.org)

### Marketing

If you have any marketing queries, please email: [marketing@cabi.org](mailto:marketing@cabi.org)

## Textbooks

Indicates the publication is a textbook and available for inspection by lecturers wishing to evaluate it for course use. Please visit [www.cabi.org/bookshop/inspection-copies](http://www.cabi.org/bookshop/inspection-copies) to request your copies.

A number of textbooks are now enhanced by open resources, to improve the learning experience for students and researchers. Including lecture slides, maps, images and other material, these resources provide additional information to supplement CABI's publishing products: [www.cabi.org/openresources](http://www.cabi.org/openresources)

## A Handbook of Environmental Toxicology

### Human Disorders and Ecotoxicology

Edited by **J P F D'Mello**

Environmental toxicology focuses on human disorders and ecotoxicology, as affected by major toxins originally from biology sources

and pollutants, and radiation generated spontaneously or as a result of anthropogenic activity. This book explores the cutting edge of research and also indicates the likely direction of future developments.

**May 2019 | HB | 9781786394675**  
**£175 | €230 | \$290**

## Urban Pest Control

### A Practitioner's Guide

**Partho Dhang**

This guide provides the key information required by practitioners engaged in urban and household pest control. Written with an emphasis on practical advice, this book

is heavily illustrated and printed in full colour throughout to act as a useful tool for self-learning as well as training fellow practitioners.

**Apr 2018 | PB | 9781786395146**  
**£19.99 | €25.99 | \$32.99**

## Invasive Species and Human Health

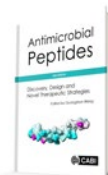

### CABI Invasives Series

Edited by **Giuseppe Mazza**  
and **Elena Tricarico**

This book examines direct effects to human health from invasive species such as bites, wounds and illness and indirect effects via

changes induced in the ecosystems. It covers case studies from different taxa (animals and plants) and in developed and developing countries.

**Jul 2018 | HB | 9781786390981**  
**£85 | €110 | \$140**

## Antimicrobial Peptides

### Discovery, Design and Novel Therapeutic Strategies

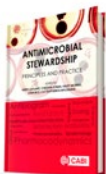

**2nd edition**

Edited by **Guangshun Wang**

This thoroughly updated new edition lays the foundations for studying antimicrobial

peptides (AMPs), including a discovery timeline, terminology, nomenclature and classifications. It covers current advances in research, examines state-of-the-art technologies, and describes new methods and strategies for AMP prediction, design and applications.

**Sep 2017 | HB | 9781786390394**  
**£105 | €140 | \$175**

## Antimicrobial Stewardship Principles and Practice

Edited by **Kerry LaPlante, Cheston Cunha, Haley Morrill, Louis Rice** and **Eleftherios Mylonakis**

Antimicrobial research has hit a wall: treatment discoveries are rarer and resistant pathogen strains more prevalent. Rather than infection control itself, antimicrobial stewardship is an essential measure in ensuring management of hospital-acquired infections. Throughout this book, international experts discuss all angles of stewardship.

**Dec 2016 | HB | 9781780644394**  
**£150 | €195 | \$250**

## Global Health Research in an Unequal World

### Ethics Case Studies from Africa

**Gemma Aellah, Tracey Chantler**  
and **P. Wenzel Geissler**

This book is a collection of fictionalised case studies of everyday ethical dilemmas and challenges, encountered in the process of conducting global health research in places where the effects of global, political and economic inequality are particularly evident.

**Sep 2016 | PB | 9781786390042**  
**£25 | €35 | \$35**

Download this title for free here:  
[www.cabi.org/cabebooks](http://www.cabi.org/cabebooks)

## Natural Polymers for Drug Delivery

Edited by **Harsha Kharkwal**  
and **Srinivas Janaswamy**

This book provides an overview of the source, chemical structure and action mechanism of natural polymers. Focusing on their utility in developing effective drug delivery systems, it covers polymers' role in binding drugs towards enhancing bioavailability, modification and derivatisation for targeted delivery, and modification as active drugs.

**Dec 2016 | HB | 9781780644479**  
**£95 | €125 | \$160**

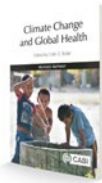

## Health Emergency Preparedness and Response

Edited by **Chloe Sellwood**  
and **Andy Wapling**

Intensely practical and illustrated with real-life examples, this text covers the breadth of health emergency preparedness, resilience and response topics in the context of inter-disciplinary and whole society responses. It includes public, private and third sector roles in preparation for and in response to natural and man-made events.

**Aug 2016 | PB | 9781780644554**  
**£39.99 | €55 | \$65**

## Climate Change and Global Health

Edited by **Colin Butler**

In this authoritative book, international experts examine long-recognised areas of health concern for populations vulnerable to climate change, describing effects that are both direct, such as heat waves, and indirect,

such as via vector-borne diseases.

**Jun 2016 | PB | 9781780648583**

**£45 | €60 | \$75**

**Sep 2014 | HB | 9781780642659**

**£87.99 | €114 | \$165.95**

## Rodent Pests and Their Control

**2nd edition**

Edited by **Alan P Buckle** and **Robert H Smith**

In the last two decades, the science and practice of rodent control has faced new legislation on rodenticides, the pests' increasing resistance to chemical control and

the impact on non-target species. This updated 2nd edition is a key read for researchers, conservationists, practitioners and public health specialists within pest control.

**May 2015 | HB | 9781845938178**

**£98.99 | €130 | \$186.95**

## Chronic Non-communicable Diseases in Low and Middle-income Countries

Edited by **Ama de-Graft Aikins** and **Charles Agyemang**

Low and middle income countries bear a significant proportion of the global burden of chronic non-communicable diseases. This

book synthesizes evidence across countries that share similar socio-economic, developmental and public health profiles, providing insights on successful and sustainable interventions and policies.

**Dec 2015 | HB | 9781780643328**

**£87.99 | €114 | \$145.95**

## One Health

**The Theory and Practice of Integrated Health Approaches**

Edited by **Jakob Zinsstag, Esther Schelling, Maxine Whittaker, Marcel Tanner** and **David Waltner-Toews**

This book examines the origins of One Health, includes practical content and discusses how to put policy into practice. Zoonotic diseases and real-world issues such as sanitation, food security and vaccination programmes are covered in detail.

**Mar 2015 | HB | 9781780643410**

**£129.99 | €172 | \$249.95**

## Disaster Management Medical Preparedness, Response and Homeland Security

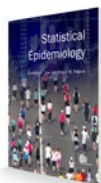

Edited by **Rajesh Arora** and **Preeti Arora**

Disaster management is increasingly important, as effective management can save lives and minimize casualties. This book

discusses best practice in both developed and developing countries, including planning and preparedness of hospitals, emergency medical services, communication and IT tools for medical disaster response and psychosocial issues.

**Sep 2013 | HB | 9781845939298**

**£124.99 | €166 | \$238.95**

## Statistical Epidemiology

**Graham Law** and **Shane Pascoe**

This textbook introduces students to statistical epidemiology methods in a structured and accessible format. Drawing on the

authors' extensive teaching experience, with defined learning outcomes, the suggested chapter orders can be tailored to the needs of students at both undergraduate and graduate level from a range of academic backgrounds.

**Nov 2012 | PB | 9781845937966**

**£39.95 | €55 | \$75**

**Nov 2012 | HB | 9781845938161**

**£93.99 | €120 | \$176.95**

## Genetic Epidemiology Methods and Applications

**Melissa A Austin**

Following an overview of the field, this textbook reviews key genetic concepts, provides an update on relevant genomic technology, and describes methods for assessing the magnitude of genetic influences on diseases and risk factors. It is an essential resource for graduate students in epidemiology and public health genetics.

**Jun 2013 | PB | 9781780641812**

**£39.95 | €55 | \$75**

## Health Promotion Global Principles and Practice

Edited by **Rachael Dixey**

This book focuses on the themes central to contemporary health promotion practice on a global scale. Social determinants, equality and equity, policy and health, working in partnerships, sustainability, evaluation and evidence-based practice are detailed, and the critical application of health promotion to practice is outlined throughout the book.

**Nov 2012 | PB | 9781845939724**

**£37.5 | €50 | \$72.5**

## Maternal and Perinatal Health in Developing Countries

Edited by **Julia Hussein, Affette M McCaw-Binns, Jürgen König, Donato F Romagnolo** and **Roger Webber**

Taking a practical approach, this book covers the background and concepts underlying

efforts to improve maternal and perinatal mortality, the current global situation and problems that prevent progress. It includes case studies and examples of successful strategies, recommends good practices, and provides a critical analysis of knowledge gaps.

**Jun 2012 | HB | 9781845937454**  
**£93.99 | €120 | \$176.95**

## Poisoning by Plants, Mycotoxins and Related Toxins

Edited by **Franklin Riet-Correa, James Pfister, Ana Lucia Schild** and **Terrie L Wierenga**

This comprehensive collection of research in the field of poisonous plants investigates

the effects of toxins on animals and humans. It covers the effects of poisonous plants on the liver, the reproductive system, and the nervous system, as well as exploring the field of herbal medicine.

**May 2011 | HB | 9781845938338**  
**£134.99 | €182 | \$259.95**

## Urban Pest Management An Environmental Perspective

Edited by **Partho Dhang**

Bringing together ideas from both academic and private enterprises, this book covers methods of pest control, their impacts on human health and the environment, and

strategies for integrated management that limits the use of harmful chemicals, providing a practical resource for researchers and policy makers.

**Oct 2011 | HB | 9781845938031**  
**£93.99 | €120 | \$176.95**

## Botanical Medicine in Clinical Practice

Edited by **Ronald Watson** and **Victor R Preedy**

This major comprehensive reference work contains contributions from more than 80 clinical and academic experts in the field, covering a range of plant products and their

uses. The book covers the safety and efficacy of botanical treatments and is the most up-to-date text on the latest research findings from all over the world.

**Nov 2008 | HB | 9781845934132**  
**£249.99 | €328 | \$477.95**

## Lyme Disease

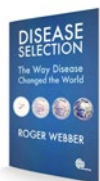

### An Evidence-based Approach

#### 2nd edition

Edited by **John J Halperin**

This new, full colour edition provides up-to-date research covering rapid advances in our understanding of the pathogen and disease. It explores the causative organism, its ecosystem, disease epidemiology, host-*Borrelia* interactions, diagnostic testing, clinical manifestations, therapeutic options, host immunity and pathogenesis, and prognosis.

**Jul 2018 | HB | 9781786392077**  
**£95 | €125 | \$160**

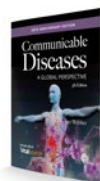

## Disease Selection

### The Way Disease Changed the World

#### Roger Webber

Diseases have played a major role in making us human and probably determine the way we run our lives. History is full of the great epidemics of plague, smallpox and anthrax, but we survived because of our genetic variation and immune system. Disease continues to have a profound effect, setting the course of the world just as much as nature has.

**Oct 2015 | PB | 9781780646831**  
**£13.99 | €18 | \$20.95**

## Communicable Diseases

### A Global Perspective

#### 5th edition

#### Roger Webber

A comprehensive yet synoptic account of diseases and their modes of transmission, this book covers epidemiology, control strategies, notifications and regulations, as well as giving an overview of the major diseases - established, new and emerging. It includes clear diagrams, bullet points and tables to aid learning, and an integrated eBook.

**Apr 2016 | PB | 9781780647425**  
**£39.99 | €55 | \$75**

## Biological and Environmental Control of Disease Vectors

Edited by **Mary Cameron** and **Lena Lorenz**

Covering the theory and practice of non-insecticidal control of insect vectors of human disease, this book provides an overview of methods including the use of botanical biocides and insect-derived semiochemicals, with an overall focus on integrated vector management strategies.

**May 2013 | HB | 9781845939861**  
**£93.99 | €120 | \$176.95**

## Tuberculosis

### Laboratory Diagnosis and Treatment Strategies

Series: **Advances in Molecular and Cellular Microbiology**

Edited by **Timothy D McHugh**

Tuberculosis is a global health threat and this book features contributions from a range of experts that captures the latest developments in the advent of bacteriological, immunological and molecular tools for diagnosis and the development of new drugs.

**Apr 2013 | HB | 9781845938079**  
**£103.99 | €135 | \$197.95**

## Dogs, Zoonoses and Public Health

### 2nd edition

Edited by **Calum N L Macpherson**,  
**François-Xavier Meslin** and  
**Alexander I Wandeler**

This edition covers the viruses, bacteria and protozoan and helminth parasites that are transmitted between man and dogs, discussing population management, control disease agents and human-dog relationships. It also includes new chapters on benefits of the human-dog relationship and non-infectious disease issues with dogs.

**Dec 2012 | HB | 9781845938352**  
**£103.99 | €135 | \$197.95**

## Pandemic Influenza

### 2nd edition

Edited by **Jonathan Van-Tam**  
and **Chloe Sellwood**

Comprehensively updated to incorporate major lessons from the 2009/10 pandemic, this accessible new edition includes new contributions from global experts on surveillance, the International Health Regulations, clinical management and local health service responses, illustrated with vibrant international case studies.

**Dec 2012 | PB | 9781845938574**  
**£41.99 | €57 | \$77.95**

**Dec 2012 | HB | 9781845938567**  
**£93.99 | €120 | \$176.95**

## Stress Response in Pathogenic Bacteria

Series: **Advances in Molecular and Cellular Microbiology**

Edited by **Stephen Kidd**

This book covers the key aspects of this rapidly developing field, including the generation of stresses by the host immune system, bacterial response to reactive chemicals, and adaptation to environmental conditions of anatomical niches such as the gut, mouth and urogenital tract.

**Jun 2011 | HB | 9781845937607**  
**£93.99 | €120 | \$176.95**

**Sustainable Diets**  
**Linking Nutrition and Food Systems**  
Edited by **Barbara Burlingame**  
and **Sandro Dernini**

This book takes a transdisciplinary approach and considers multisectoral actions, integrating health, agriculture and environmental sector issues, to comprehensively explore the topic of sustainable diets. It informs readers with arguments, challenges, perspectives, policies, actions and solutions on this global topic.

**Dec 2018 | HB | 9781786392848**  
**£95 | €125 | \$160**

**Health Benefits of Green Tea**  
**An Evidence-based Approach**  
Edited by **Yukihiko Hara, Chung S Yang,**  
**Mamoru Isemura and Isao Tomita**

This book reflects current understanding of the prevention of major chronic and some infectious diseases by tea and tea constituents. It explores common emerging themes related to the actions of tea polyphenols against different diseases, offering up-to-date data, evidence and comprehensive research.

**Oct 2017 | HB | 9781786392398**  
**£105 | €140 | \$175**

**The Encyclopedia of Herbs and Spices**  
**2 Volume Pack**  
**P N Ravindran**

This highly illustrated reference work provides comprehensive coverage of the taxonomy, botany, chemistry, functional properties, medicinal uses, culinary uses and safety issues relating to over 250 species of herbs and spices.

**Dec 2017 | HB | 9781780643151**  
**£400 | €520 | \$660**

**Microbial Food Safety**  
**A Food Systems Approach**  
**Charlene Wolf-Hall and William Nganje**

This interdisciplinary, full-colour textbook describes microbial contaminants from plants, fungi and animal products that are potential risks to humans, reviewing their origin, risk, prevention and control. Using models to explain concepts, it shows interactions between humans moving food through global systems and impacts on microbial food safety.

**Mar 2017 | PB | 9781780644813**  
**£39.99 | €55 | \$65**  
**Mar 2017 | HB | 9781780644806**  
**£85 | €110 | \$140**

## Nutrition and Behavior

### A Multidisciplinary Approach

#### 2nd edition

Edited by **John Worobey, Beverly J Tepper**  
and **Robin B Kanarek**

The relationship between nutrition and behaviour is bi-directional, with nutrition able to affect activity, and behavior impacting diet and food intake. This book shows how behaviour may determine choices through peer modelling and poor dietary habits. Micronutrients and eating disorders are addressed, with a review of research methods and results.

**Aug 2015 | PB | 9781780644455**  
**£39.99 | €55 | \$65**

**Aug 2015 | HB | 9781780644448**  
**£119.99 | €156 | \$197.95**

## Phytochemicals of Nutraceutical Importance

Edited by **Dhan Prakash** and **Girish Sharma**

This book covers a wide spectrum of human health and diseases including the role of phytonutrients in prevention and treatment. It includes the biological and clinical effect,

molecular level approach, quality assurance, bioavailability and metabolism of a number of phytochemicals and their role in combating different diseases.

**Feb 2014 | HB | 9781780643632**  
**£129.99 | €172 | \$249.95**

## Home Parenteral Nutrition

### 2nd edition

Edited by **Federico Bozzetti, Michael Staun**  
and **Andre Van Gossum**

Home parenteral nutrition (HPN) is the intravenous administration of nutrients carried out in the patient's home. This book analyses

current practices in HPN, covering epidemiology of HPN across the UK and Europe, USA and Australia, its role in the treatment of clinical conditions, as well as ethical and legal aspects and patient quality of life.

**Dec 2014 | HB | 9781780643113**  
**£119.99 | €156 | \$228.95**

## Health-promoting properties of Fruit and Vegetables

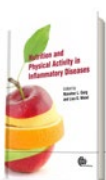

Edited by **Leon Terry**

This book collectively discusses and reviews empirical data on health-promoting properties of major fresh produce types. It provides detailed information on identity, nature, bioavailability, chemopreventative effects and postharvest

stability of specific chemical classes with known bioactive properties.

**Nov 2013 | PB | 9781780644226**  
**£45 | €60 | \$85**

**Oct 2011 | HB | 9781845935283**  
**£103.99 | €135 | \$197.95**

## Nutrition and Physical Activity in Inflammatory Diseases

Edited by **Manohar L Garg** and **Lisa G Wood**

Certain nutrients and physical activity can significantly alter immune function and inflammation, and targeted interventions may be an effective and inexpensive means to

improve the inflammation and immune dysfunction associated with chronic diseases. This book explores how nutrients and physical activity impact inflammatory diseases.

**Dec 2012 | HB | 9781845939106**  
**£124.99 | €166 | \$238.95**

## Chemical Food Safety

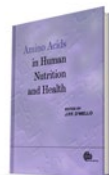

**Leon Brimer**

*Chemical Food Safety* covers the underlying principles and applied science required to understand, analyse and take professional

action on food safety problems and questions that call for interventions at a local, national or international level.

**Apr 2011 | PB | 9781845936761**  
**£39.95 | €55 | \$75**

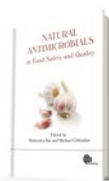

## Amino Acids in Human Nutrition and Health

Edited by **J P F D'Mello**

Human health issues relating to amino acids are extremely broad and include metabolic disorders of amino acid metabolism as well as their presence in food and use as

supplements. This book covers the biochemistry of amino acid metabolism in the context of health and disease.

**Nov 2011 | HB | 9781845937980**  
**£134.99 | €182 | \$259.95**

## Natural Antimicrobials in Food Safety and Quality

Edited by **Mahendra Rai**  
and **Michael Chikindas**

This book explores some novel, natural sources of antimicrobials as well as the latest developments in using well-known

antimicrobials in food.

**Oct 2011 | HB | 9781845937690**  
**£124.99 | €166 | \$238.95**

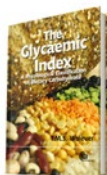

## Combating Micronutrient Deficiencies: Food-based Approaches

Edited by **Brian Thompson**  
and **Leslie Amoroso**

This book focuses on practical, sustainable actions for overcoming micronutrient deficiencies through increased access to,

and consumption of, adequate quantities and an appropriate variety of safe, good-quality food.

**Nov 2010 | HB | 9781845937140**  
**£108.99 | €140 | \$207.95**

## Glycaemic Index A Physiological Classification of Dietary Carbohydrate

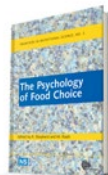

**Thomas M S Wolever**

The book's chapters cover the definition of the GI, how to measure the GI, how to apply GI information to meals and diets, the reasons

why foods have different GI values and the impact of altering a diet GI on health and disease.

**Jan 2010 | PB | 9781845937225**  
**£35.99 | €47 | \$72.95**

**Jun 2006 | HB | 9781845930516**  
**£87.99 | €114 | \$165.95**

## Psychology of Food Choice

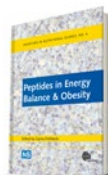

Series: **Frontiers in Nutritional Science**  
Edited by **Richard Shepherd**  
and **Monique Raats**

This book brings together insights from a number of sub-disciplines within psychology and related disciplines. It is organised into five

main sections which cover: models of food choice; biological and learning influences on food choice; societal influences; food choices across the lifespan; and changing dietary behaviour.

**Feb 2010 | PB | 9781845937232**  
**£35 | €45 | \$70**

**Aug 2006 | HB | 9780851990323**  
**£103.99 | €135 | \$197.95**

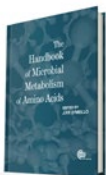

## Peptides in Energy Balance and Obesity

Series: **Frontiers in Nutritional Science**  
**Gema Frühbeck**

Presenting a detailed and comprehensive account of the roles of specific peptides in energy balance, food intake control and

co-morbidities, this review provides a better understanding of the patho-physiology of energy balance and obesity.

**May 2009 | HB | 9781845934071**  
**£98.99 | €125 | \$186.95**

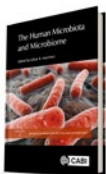

## The Handbook of Microbial Metabolism of Amino Acids

Edited by **J P F D'Mello**

This book collates and reviews recent advances in the microbial metabolism of amino acids, emphasizing diversity - in terms of the range of organisms under investigation

and their natural ecology - and the unique features of amino acid metabolism in bacteria, yeasts, fungi, protozoa and nematodes.

**Apr 2017 | HB | 9781780647234**  
**£195 | €255 | \$320**

## Human Microbiota and Microbiome

**Series: Advances in Molecular and Cellular Microbiology**

Edited by **Julian R Marchesi**

A research-level review text of the current understanding of human microbiomes, functions they bring to the host, how we can

model them, their role in health and disease and exploration methods. Current research in areas such as long-term effects of antibiotics makes this a subject of interest particularly for microbiology researchers and students.

**May 2014 | HB | 9781780640495**  
**£87.99 | €114 | \$165.95**

## The Handbook of Microbial Bioresources

Edited by **Vijai Kumar Gupta, Gauri Dutt Sharma, Maria G Tuohy and Rajeeva Gaur**

Microbial technology has an integral role in the development of biotechnology, bioengineering and biomedicine. This

book provides a detailed compendium of the methods, biotechnological routes, and processes used to investigate microbial applications. It covers the applied aspects of microorganisms in the health, industry and environmental sectors.

**Jun 2016 | HB | 9781780645216**  
**£195 | €255 | \$320**

## Ticks and Tick-borne Diseases

**Geographical Distribution and Control Strategies in the Euro-Asia Region**

Edited by **Mo Salman and Jordi Tarrés-Call**

This book is an expansion of the EFSA report on the subject, and details the significance of tick-borne diseases, identification of tick

species, emerging tick-borne infections, factors influencing the spread and distribution of ticks and surveillance and control measures.

**Dec 2012 | HB | 9781845938536**  
**£103.99 | €135 | \$197.95**

## Beneficial Microorganisms in Agriculture, Food and the Environment

### Safety Assessment and Regulation

Edited by **Ingvar Sundh, Andrea Wilcks**  
and **Mark S Goettel**

This book provides an overview of the available methodology for safety

assessments of microorganisms. Also covered are the regulatory systems in risk assessment and management of microbial products, quarantine legislations, international treaties, the importance of public risk perception and risk reduction behaviour.

**Nov 2012 | HB | 9781845938109**  
**£103.99 | €135 | \$197.95**

## Antimicrobial Drug Discovery

### Emerging Strategies

Series: **Advances in Molecular and Cellular Microbiology**

Edited by **George Tegos**  
and **Eleftherios Mylonakis**

This book documents the latest research,

covering current and promising activities in four key areas: computational chemistry and chemoinformatics, High Throughput Screening (HTS), non-vertebrate model hosts and light and nano-based technologies.

**Aug 2012 | HB | 9781845939434**  
**£124.99 | €166 | \$238.95**

## Bacteriophages in Health and Disease

Series: **Advances in Molecular and Cellular Microbiology**

Edited by **Paul Hyman**  
and **Stephen T Abedon**

This book covers phage-bacterial-human interactions: the role and impact of phages

on natural bacterial communities, the potential to develop phage-based therapeutics and other aspects in which phages can be used to combat disease, including bacterial detection, epidemiology, tracing of fecal contamination of water and decontamination of foods.

**Sep 2012 | HB | 9781845939847**  
**£93.99 | €120 | \$176.95**

## Giardia and Cryptosporidium

Edited by **M G Ortega-Pierres, S Cacciò, R Fayer, T Mank, H Smith**  
and **R C A Thompson**

This book presents a comprehensive overview of recent research. Chapters discuss topics from taxonomy, nomenclature and

evolution to molecular epidemiology, advances in diagnostics and zoonotic, human and animal health issues.

**Feb 2009 | HB | 9781845933913**  
**£119.99 | €151 | \$228.95**

# Global Health

A pair of hands is cupped under a stream of water falling from above. The water is clear and splashes around the hands, creating a sense of freshness and care. The background is a light, neutral color.

Health for all

- Fully searchable bibliographic database, dedicated to public health
- Over 3 million scientific records from 1973 to the present day
- Around 190,000 records added each year
- Over 92,000 full text articles
