

IP Recognition step-by-step guide to the login process for the PRA Tool

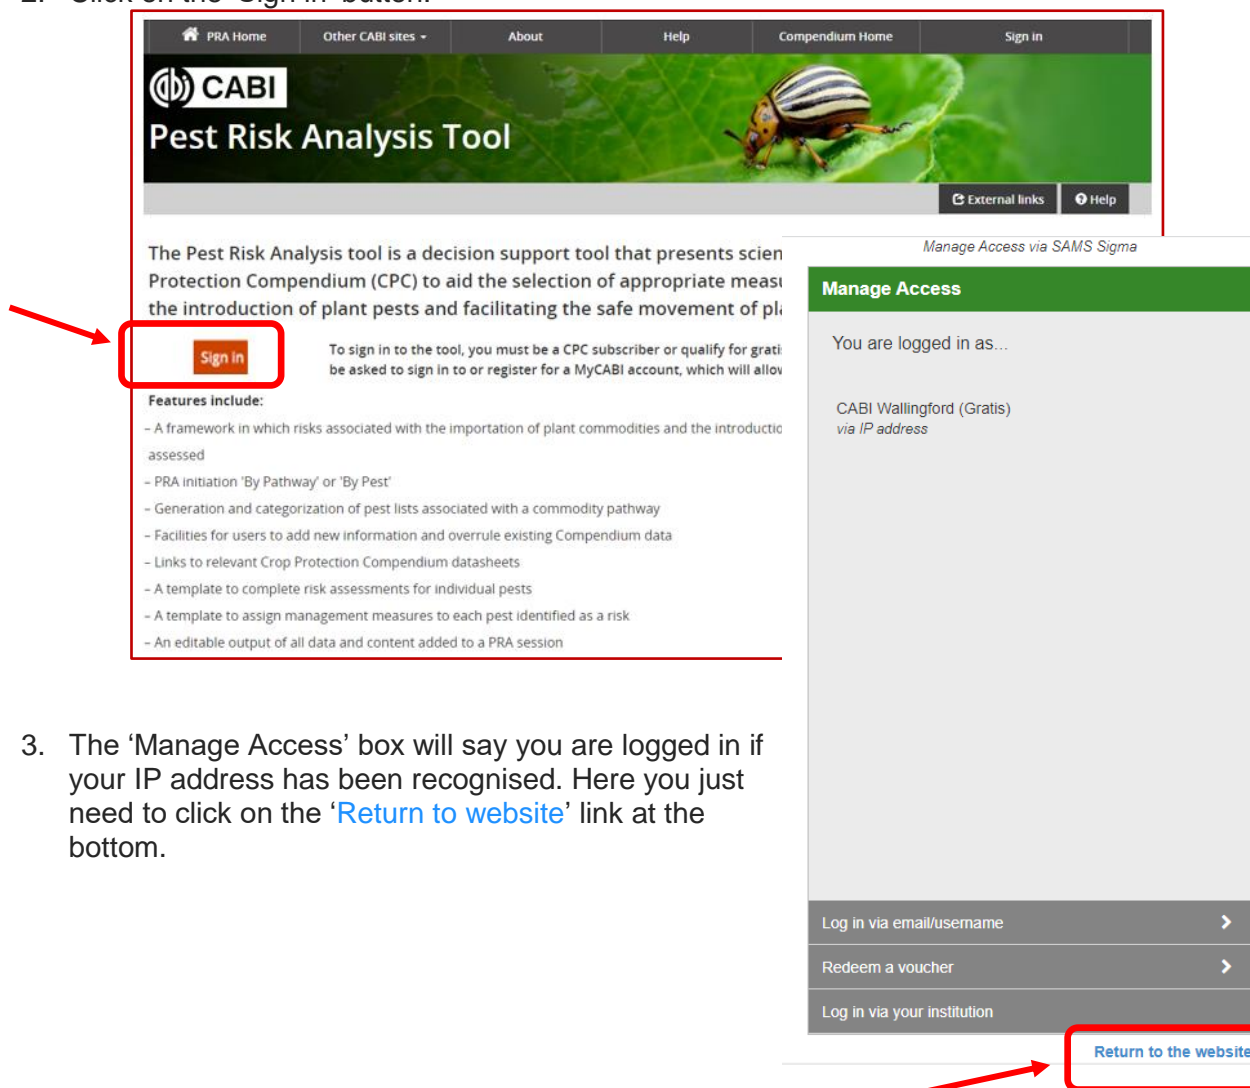

The PRA Tool is available to subscribers of the CABI Compendium who have the added option for the PRA Tool. This guide is for users who have registered their IP addresses with CABI.

STEP 1: Sign into the PRA Tool

STEP 2: Create a personal My CABI account so that you can save your PRAs

STEP 1: Sign in to the PRA Tool

1. To enter the PRA Tool go to www.cabi.org/PRA-Tool.
2. Click on the 'Sign in' button.

The screenshot shows the CABI Pest Risk Analysis Tool website. The top navigation bar includes links for PRA Home, Other CABI sites, About, Help, Compendium Home, and Sign in. The main header features the CABI logo and the title 'Pest Risk Analysis Tool' over a background image of a beetle on a leaf. Below the header, a 'Sign in' button is highlighted with a red box and a red arrow. To the right of the button, a message states: 'To sign in to the tool, you must be a CPC subscriber or qualify for gratis access. You will be asked to sign in to or register for a MyCABI account, which will allow you to save your PRAs.' Below this, a list of features is provided. On the right side of the page, a 'Manage Access' box is shown, indicating that the user is logged in as 'CABI Wallingford (Gratis) via IP address'. At the bottom of this box, a 'Return to the website' link is highlighted with a red box and a red arrow.

The Pest Risk Analysis tool is a decision support tool that presents scientific information from the Crop Protection Compendium (CPC) to aid the selection of appropriate measures to prevent the introduction of plant pests and facilitating the safe movement of plant products.

Sign in

To sign in to the tool, you must be a CPC subscriber or qualify for gratis access. You will be asked to sign in to or register for a MyCABI account, which will allow you to save your PRAs.

Features include:

- A framework in which risks associated with the importation of plant commodities and the introduction of pests are assessed
- PRA initiation 'By Pathway' or 'By Pest'
- Generation and categorization of pest lists associated with a commodity pathway
- Facilities for users to add new information and overrule existing Compendium data
- Links to relevant Crop Protection Compendium datasheets
- A template to complete risk assessments for individual pests
- A template to assign management measures to each pest identified as a risk
- An editable output of all data and content added to a PRA session
