

Navigating the PestSmart e-Learning Modules

Selecting **Menu** on any page opens a list of the pages in the current lesson. Select a page to go directly to it.

Selecting **Glossary** opens an alphabetical list of relevant terms together with an explanation of each term.

Menu Glossary

Exit

Selecting **Exit** will prompt you to choose whether or not to close the current lesson. Selecting **Yes** will close the lesson and return you to the list of Modules.

Little leaf

The symptom "little leaf" is often associated with yellowing and also with witches broom, though this is not always the case. The leaves may sometimes be distorted as well as extremely small. This symptom is much more common in the tropical regions of the world.

Select each image to view in more detail.

Many of the thumbnails in PestSmart can be selected to show larger high-resolution versions of the images.

The **Home** button will take you directly back to the lesson Introduction.

4 of 26

The left arrow takes you to the **previous page**.

The current **page number** and the **total number of pages** in the lesson are shown here.

The right arrow takes you to the **next page**.

When the **Expert** icon appears, additional information is available. Select the icon to see the information, then select the icon again to hide it.
