

## Building sustainable partnership: Perspective and experience on Public and Private Partnerships

Asia Pacific Regional Consultation Meeting

April 13, 2022

# New orientation of Vietnam for agriculture development to 2030: priorities for partnership with private sector

- Strategy of Sustainable Rural and Agricultural development, period 2021-2030, with focus on **agroecological agriculture, modern rural area and smart farmer!**
  - Agro-ecology transition
  - Low carbon agriculture
  - Food system transformation
- National action plan for responsive, transparent and sustainable food system, 2021- 2030 as coordination tool for public-private partnerships
  - Ensure that people have access to safe and nutritious food
  - Reduce food loss and promote sustainable food use and consumption
  - Promoting sustainable, responsible, green and low-emission agriculture
  - Development of competitive, transparent, inclusive and fair agri-food value chains
  - Strengthen people's resilience to fluctuations, shocks and pressures, especially focusing on women, youth and vulnerability groups.
