

Euphresco

Plant Health Research Forum

Baldissera GIOVANI, PhD

Ecosystem of organizations

Euphresco

Network for phytosanitary research coordination and funding

What makes Euphresco successful?

- Diversity: members' missions, geographical coverage
- Flexibility: to cope with different national mechanisms
- Accessibility: plant health research should not be an elitist endeavour
- Scarcity: limited resources available increase the need to optimize their use

CABI-Euphresco partnership

- Policy <-> research <-> field
- Strengthen infrastructure/information accessibility
- A real global network for plant health research
