

CABI - UK

Dr Julien Godwin - Regional Director CABI UK

Glasshouse & Liquid Nitrogen facility

Level 3 Quarantine facility

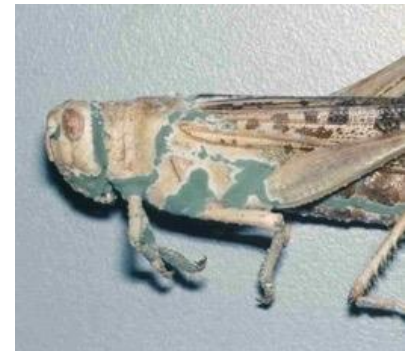

Office and laboratories

CABI - UK

- Around 60 staff
- Usually handle between 90 and 130 projects concurrently
- Usually publish around 50 high quality peer-reviewed papers per year
- As the rest of CABI, we think global, but work local

CABI – UK expertise

- Nature Based Solutions research and development through biopesticides and biological control
- Digital development through digital advisory tools, pest modelling and data governance
- Microbiology through biobanking (single species and microbial communities)
- Secretariats and project management
- Policy: One health and the Nagoya convention
- Training: digital, in person, worldwide
