Building community, capacity and knowledge of FAIR data processes for POs and grantees. Championing improvements in data-rich foundation investments.
Knowledge sharing

The FAIR Process Framework distilled into a six-step process

The diagram illustrates how we will deliver FAIR practices in foundation AgDev investments and how we work with POs and grantees to activate FAIR practices. Though the process depicted is linear, The FAIR Process Framework can be implemented at any stage of investment – for example if you have already explored the data ecosystem you may start on a later stage.

Knowledge sharing

Read this blog where CABI describes CEO Dr Daniel Elger’s visit to the Africa Food Systems Forum in Dar es Salaam, Tanzania

Daniel and the CABI team highlighted the need to support climate-resilient food systems.

They also advocated for the dissemination of FAIR practices and The FAIR Process Framework [ALPHA] at the conference.
FAIR Tools

Identify data-rich investments with this checklist from the ODI and CABI’s Data Sharing Toolkit which was developed with POs in mind:

Read this blog from EDA3 Project Manager Chipo on the moral case for sharing data to improve investment potential:

Explore this open explainer which looks directly at the benefits of FAIR for those working with grantees on data-rich foundation investments:
